PRASHANT TIWARI

WELCOME TO MY

PIZZA SALES REPORT

HELLO,
My name is Prashant Tiwari, and in this project, I have leveraged SQL queries to address various business-related questions concerning pizza sales. The project involves analyzing data to uncover insights that drive decision-making and improve sales strategies.

ALL THE QUESTIONS ARE MENTIONED HERE

PRASHANT TIWARI

```
Basic:
Retrieve the total number of orders placed.
Calculate the total revenue generated from pizza sales.
Identify the highest-priced pizza.
Identify the most common pizza size ordered.
List the top 5 most ordered pizza types along with their quantities.

Intermediate:
Join the necessary tables to find the total quantity of each pizza category ordered.
Determine the distribution of orders by hour of the day.
Join relevant tables to find the category-wise distribution of pizzas.
Group the orders by date and calculate the average number of pizzas ordered per day.
Determine the top 3 most ordered pizza types based on revenue.

Advanced:
Calculate the percentage contribution of each pizza type to total revenue.
Analyze the cumulative revenue generated over time.
Determine the top 3 most ordered pizza types based on revenue for each pizza category.
```

PRASHANT TIWARI

-- CALCULATE THE TOTAL REVENUE GENERATED FROM PIZZA SALES.

```
2    SELECT
3        ROUND(SUM(order_details.quantity * pizzas.price),
4                2) AS total_sales
5    FROM
6        order_details
7            JOIN
8        pizzas ON pizzas.pizza_id = order_details.pizza_id
```
